Our leadership

«The business of metalworking and plastics processing has changed since I founded the Moulder more than 10 years ago. However, quality products, high-quality service and innovative thinking never go out of fashion. Using this focused approach, we are steadily gaining a large market share while simultaneously diversifying our product portfolio in order to best meet the needs of our clients.

It has been a great journey so far, but it is only just the beginning.»

Sergei Avdeichik / President
